Screenshots of Each User Story Along with Their Description:

The screenshot shows the Jira interface for the SE_LAB_2 project. The left sidebar contains navigation options like 'For you', 'Recent', 'Starred', 'Apps', 'Plans', 'Spaces', 'Filters', 'Dashboards', 'Teams', 'Goals', and 'Projects'. The main panel displays the 'Backlog' for SE_LAB_2, listing 17 work items. The selected issue is SL2-3, 'Receive Incident Alert', which is in the 'To Do' state. The right panel shows the details for this issue, including the title 'Receive Incident Alert', a description 'As a monitoring system, I want to send an incident alert to the escalation system, So that the system can begin processing the incident.', and sections for 'Attachments', 'Subtasks', and 'Linked work items'.

Jira work item

SL2-17 / SL2-19

Override Upcoming On-Call Engineer

To Do

Improve Story

...

+

Description

As an Incident Commander,
I want to change the assigned engineer for an upcoming shift,
So that shift swaps can be handled without modifying the entire schedule.
